Your Analysis Results

Based on a due date of February 2026

Double Deductible Alert

Your pregnancy spans two calendar years, which means you may hit deductibles in both years. We've factored this into our calculations.

Important: Baby's Coverage

Your baby gets their own deductible immediately at birth. You have 30 days after birth to add your baby to your insurance plan.

RECOMMENDED PLAN

Blue Shield

This plan offers the best balance of premiums and out-of-pocket costs for your expected needs.

You save **$1,800** compared to UNH.

ESTIMATED ANNUAL COST

$17,000

Premium/mo	Deductible	OOP Max
$500	$4,000	$8,000

Detailed Comparison

PLAN	ANNUAL PREMIUM	EXPECTED OOP	EMPLOYER HSA	EST. TOTAL COST
Blue Shield	$6,000	$12,000	-$1,000	$17,000
UNH	$4,800	$16,000	-$2,000	$18,800

The Math: How We Calculated This

1 FIXED COSTS

$6,000

Monthly Premium ($500) × 12 months. This is what you pay regardless of doctor visits.

+

2 MEDICAL COSTS

$12,000

Deductible ($4,000) + OOP Max ($8,000) due to double deductible scenario.

−

3 EMPLOYER HSA

$1,000

Your employer's HSA/HRA contribution reduces your out-of-pocket costs.

Estimated Total Annual Cost

$17,000

=

**Estimates assume in-network providers and hitting your family out-of-pocket maximum during the birth year, which is statistically likely for families with pregnancy and birth costs. Tax savings based on employer HSA contribution.*
